

Nuclear Future

Bringing news of nuclear power developments to our readers in the industry and beyond

NOTES FOR ADVERTISERS

Nuclear Future is the joint journal of the British Nuclear Energy Society and the Institution of Nuclear Engineers. It is a bi-monthly consisting of a minimum of 52, A4 pages (some in colour) with a circulation in excess of 3,250 copies per issue - mostly to the membership, subscribers and supporting companies.

Nuclear Future, therefore, provides an opportunity for advertisers to reach those concerned with the design, manufacture, construction, installation, maintenance, operation and decommissioning of whole process plants as well as promoting individual items of related equipment. It is also the ideal medium for recruitment advertising.

The following table shows the advertising rates (all prices ex-VAT):

	Quarter-page 125mmHx85mmW	Half-page 125mmHx172mmW	Full-page* 255mmHx172mmW
Black & White	£150	£280	£470
Colour	£505	£630	£850

* With regard to the full-page advertisement, the dimensions given relate to the available space between the normal page header and footer. If required, and at no extra cost, the header and footer could be removed so as to allow the full-page advertisement to bleed off the A4-page.

The front cover picture (175mm square) is available for sponsorship at a cost of £850. Special price reductions are available for advertisements appearing in more than one issue.

An Agency Discount of 15% applies.

Advertisements can be accepted in most electronic formats (preferably .pdf or .jpg files) on disc, by email or ISDN. Whichever method is used, a hard copy version should be sent to the address below for proofing purposes. The production schedule is as follows:

ISSUE	ISSUED IN:	SPACE BOOKING:	COPY DATE:
1 - Jan/Feb	2nd week of January	before end of October	before end of November
2 - Mar/Apr	2nd week of March	before end of December	before end of January
